About me

I am a hardworking, thorough, and dynamic individual with varied interests. From a young age, I have been able to thrive in many activities such as competitive tennis for nearly 10 years, various extreme sports, and sports in general. However, the most fulfilling thing for me is traveling and the sharing that results from exchanges with people from culturally diverse backgrounds. My goal is to work in the wine industry, learn more about it, and start now. Being immersed in this world since childhood, it is unimaginable for me to move away from it.
