Dear Madam, Dear Sir,

I am contacting you today in a process of research of an end-of-study internship.

I am Sarah Baffard, a Master 2 student specializing in Wines and Spirits at the Burgundy School of Business in Dijon.

I am looking for a final internship around wines and spirits in the event field or with agents or commercials of your products.

Dynamic, I feel fulfilled when I am active and in contact with others, and I am convinced that it is necessary to feel good where you are to give the best of yourself in a project.

Having a particular attraction for the world of wines and spirits, I am convinced that my presence in one of your teams would be positive.

Since my youngest age, I have been immersed in the world of wine making through the family estate and this will have taught me the importance of know-how and tradition in this domain, to appreciate the quality of well-made wines.

In my mind, your company could give me a great opportunity to develop myself and perform in my internship.

Finally, I am completely mobile to work in France, Europe or in the world.

Having just finished my Master in BSB, I am available from now to complete this internship of 4 to 6 months to finish by December 31, 2023.

I look forward to your response and I look forward to any further information.

Yours truly,
Sarah Baffard
